Customer Reviews

This is a very nice cookbook with some wonderful recipes. In this book you will find a number of easy to make dishes and deserts everything from fish to delicious cookies! If you are looking for good book on how to cook on a cooking sheet then look no further! I recommend this book as it is very easy to understand and all the recipes are quite good!

I never knew that so many delicious meals could be made using only a sheet pan! This book is fantastic because it contains such a wide variety of recipes with little clean-up needed after. It even includes desserts. The only reason I gave 4 stars instead of 5 is because the formatting needs to be fixed in some places, especially when viewing with the black background on Kindle. The text and recipes themselves are great.

I was looking for some simple recipes I could make that doesn't require a lot of equipment. I was going to purchase a slow cooker, but then I came across this amazing book. Filled with easy-to-follow recipes using chicken, beef, pork, fish and it even includes a dessert section and vegetarian and vegan options. And I only need an oven and a sheet pan (things I already own). The recipes look mouth-watering, I can't wait to try them! I'll save my money from a slow cooker and use these sheet pan recipes instead. Thanks for the great idea!

Who would of thought there were so many recipes for just an oven and a sheet pan. The author didn't leave anyone out either, she included meat lovers like me, vegetarian's and children's desserts which every recipe is healthy. I am very impressed and happy to add this book to my collection. I would recommend it to anyone.
