Absolutely wonderful book on making miniatures. Clear and beautiful pictures with fantastic instructions. This book will be used many times in my miniature making- I love it and would recommend it to anyone wanting to make their own dollhouse furniture.

I really enjoyed the style and ease of the furniture instructed in this book. If you only have the basic skills and tools you can complete all projects. The writing and pictures are easy to follow. The only thing to be aware of is, that some steps and measurements have moved out of sink but still very easy to follow

Not sure how to rate this. I loved the design of all of the pieces, & they seemed simple enough to put together. The problem I had was that I got this for my Kindle Fire, & all of the steps were out of order. Wha?! It jumped from step 1 to step 9, then back to 4, etc. The measurements were difficult

to figure out as well. There was a type of chart that just looked like a mess of numbers. Maybe I'll get a hard copy one day, but for now I will just try my best to flip around with the Kindle version. Harumph.

Loved the tutorials and techniques . Can't wait to start a project! Worth the investment and a great resource book to add to my collection
