Customer Reviews

Terrific book full of 97% modern ranch plans. Great use of space with move of the designer/architect plans. House plans are not in order by square footage - which would be a little nicer. I know that it is easy to search through internet house plans - but it is so nice to have a color book with this quality of printed paper. Cheap price for the quality. Easy to compare the plans you like.

Mostly has no 'open concept' designs. I only found a few that seemed to be almost that. Not really useful in 2016, but was interesting to look through. Ok for the price.

Nice variety of homes, and information. worth looking at.

Found the one we're building!! ^

Great!
