Best Sellers Rank: #593,392 in Books (See Top 100 in Books) #38 inÂ Books > Health, Fitness & Dieting > Diets & Weight Loss > American Heart Association

Customer Reviews

Had to have the new book to recertify for work-it is basically the same stuff with small changes-but, if you've been doing it for 25 years-change is hard to remember-all you really need to do is be sure you are pumping blood to the brain and through the body!

This is the most current and updated BLS Healthcare Provider Manual. This manual helped me to pass the BLS/CPR for Healthcare providers class. Love the reference card.

Excellent,concise,easy to follow !! Covers all the changes and how to operate a automatic defibrillator in a very clear manner. It is a good reference to keep for review so I decided to purchase instead of renting one for the class.

For someone intent on summarizing CPR, this guide works wonderfully. That is why I am giving it 5 starsIt is also useful for those who want to review concepts and techniques before taking a CPR training

I love it - thank you very much. Please keep up the good work and you can count on people like me!

Exactly what I was looking for, great price. Couldn't be happier with the book. I would definitely recommend this for anyone just getting into the EMT stuff.

Covers everything you need to know for the AHA exam. Very well detailed highly recommend for those preparing to take a CPR course.

Excellent review of BLS for healthcare providers. Worth the money.
