Customer Reviews

The recipes are simple and tastes delicious. The ones I have made. My diabetes is now under control. Good book. Will recommend it to anyone. Who knew that with diabetis you can eat spanish food as rich as it is.

I bought this for my stepfather because he loves to eat and he loves sweets but he has diabetes and he can't eat sweets at all unless his sugar levels are down. This book has a lot of good recipes but it also has a lot of recipes that include sugar... so I'm not sure why they wrote a book that has all of its dessert and some of its drink with sugar in their recipe.

I purchsed this book for family and they loved it. They used the cookbook to make healthier foods and they enjoyed it.

Un libro muy interesante y con muy buena informacion

Me gusto. Buenas recetas.

Recipes are delicious and healthy. English and Spanish side by side, so if looking for an ingredient you will know how to describe in both languages.

I bought this item for my dad, and he liked it very much, although the package arrived much later than it was promised.

the recipes are not consistent with the diet and certainly not consistent with original latin recipes. It is an interpretation of the author and might be a fusion, therefore original names should not be used.
