Customer Reviews

I love cookbooks! They give me ideas to work with. Since my youngest son told me that he wants to try going vegetarian for awhile, I have to read cookbooks. This one gave me quite a few good recipes and some I can work with. Then there's a bonus of quinoa recipes. I myself don't like it but my son likes it so I'll try again.

Clean eating is a good way to refresh your habits. It is more of the best and healthiest options in each of the food groups. This embraces whole foods like vegetables, fruits and whole grains and plus healthy proteins and fats. Lifestyle with built in flexibility. It is the practice of avoiding processed foods and basing it on your diet. This book is very informative it includes recipes that will satisfy your taste. This really useful guide easy tip to follow.

The book is very informative and tells you about what the types of food have to offer you for your health. There are a ton of recipes in here that look amazing. I wish there were pictures because I just like to see what the finished dish looks like. I think it makes the recipes more appealing but honestly just the dish names in here sound amazing! I can't wait to try them!

As advertised. Got it free. Worth the price. Would have paid two times the price. :). It's good.

This is a great little recipe book. I was lucky and got it at a drop down price, and I'm so glad I got it. Some of these recipes are yummy!
