If you're like me, dreading the idea of doing a doing one of these modern vegetables cleanses drinking liquid kale for a week, you'll find relief in the concept of souping! In short, keep the healthy, and throw into some more 'soupy' things, to simply make it more realistically appealing (no, none of us have ever dreamed of a Michelin-star kale juice). Great little handbook on how to make all this more edible, followed by ready-to follow recipes to put it all into action. If you've ever felt you needed to eat more vegetables, this book is for you!

Juice cleanses and internal detoxification is a hot topic in this day and age. There are many arguments amongst health experts on the topic. Some preach that juicing with vegetables is the way to go, others argue to juice with only fruits. In this read you will learn about a completely different

juicing method which is souping. Souping is a more pleasant way to fast, or cleanse by chugging down warm soup as opposed to cold/raw drinks. How is this done? Consume a bunch of cooked vegetable soups for several days and you have cleansed your bowels. The best part of soup juicing is that it does not require an expensive juicer and is far less time consuming. And yes, soup cleansing is less challenging than juicing on raw fruit juice or vegetable juices.
