Gardening With Foliage First: 127 Dazzling Combinations That Pair The Beauty Of Leaves With Flowers, Bark, Berries, And More

Synopsis

Create a foliage-driven garden that dazzles! The beauty of flowers is seductive, but flowers, by their fleeting nature, are a fickle base to provide long-lasting gardens with year-round interest. Tackle this problem with the advice in *Gardening with Foliage First*. Learn how to first build a framework of foliage and then layer in flowers and other artistic elements to add the finishing touches. This simple, recipe-style approach to garden design features 127 combinations for both sunny and shady gardens that work for a variety of climates and garden challenges, including deer, dry shade, and more.
