Customer Reviews

Awesome book! I bought it because it sounded intriguing, never thinking I wouldn't get anything done today because I just could not put it down. Having lived in Ontario and Louisiana, I can attest to the accuracy of his observations, including those of going through US/Canadian customs. Great advice for many areas of one's life, especially if you have never taken your privacy seriously.

Really enjoyed the book just didn't like how he made it feel like I was reading a drama, too suspenseful for such a dense informative book. Definitely learned a lot though, TONS. Recommend it to anyone who values privacy!

Maybe this was written as an advanced level manual. But the description does not say that. This guy is talking like I'm supposed to know what he is talking about. Well I don't. I'm at 37% and I am completely lost. He seems to be actually talking about darkness. I'm baffled.(The story about his creepy old lady neighbor was chilling).

Outstanding, equal to JJ Luna

Appears to be written by somebody only wants to escape college loans. Useless information. Not a how to, or where to look for more information book.

Lance has a great style of getting info to you and telling a great series of stories about the real world.

It will open eyes. Very painful! Beware!
